VOLUME CVI.---NO. 167. ALEXANDRIA, VA., MONDAY EVENING, JULY 17, 1905. PRICE 2 CENTS.

**DO YOU FEEL THIS WAY.**

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your sluggish liver to work. It will get into every vein in your body and purify your blood. It will set things right in your stomach, and your appetite will come back. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about speedy cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose *advice is given free* to all who wish to write him. His great success has come from his wide experience and varied practice.

O. S. Copenhaver, Esq., of Mount Union, Huntingdon Co., Pa. (Box 22), writes: "About twelve years ago I was suddenly taken with a pain in the pit of the stomach which was so violent I could not walk straight. It would grow more severe until it caused waterbrash and vomiting of a slimy yellow water. A physician told me I had a form of dyspepsia and treated me for about six months with but little benefit. Another physician told me my liver was out of order and that I had indigestion. He gave me a treatment and I got some better but only for a short time. I then tried another one, who said I had chronic indigestion, ulceration of the lining of the stomach, torpid liver and kidney affection. He treated me for more than a year and I felt much better, but it did not last. I then took to using several widely advertised patent medicines, but received no more than temporary relief. I then tried Dr. Pierce's medicines, using his 'Golden Medical Discovery,' and the 'Pleasant Pellets,' and in two months' time I was feeling better than I had for years before."

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good."

**THE POWER OF STEAM.**

**Many May See But It Takes Genius to Realize.**

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

E. S. Leadbeater & Sons, Special Agents.

**Two Dyspeptics**

If you are too fat it is because your food turns to fat instead of muscle—strength. If you are too lean the fat producing foods that you eat are not properly digested and assimilated.

Lean, thin, stringy people do not have enough Pepsin in the stomach, while fat people have too much Pepsin and not enough Pancreatine.

**Kodol**

**Dyspepsia Cure**

contains all the digestive juices that are found in a healthy stomach, and in exactly those proportions necessary to enable the stomach and digestive organs to digest and assimilate all foods that may be eaten. Kodol is not only a perfect digestant, but it is a reconstructive, tissue building tonic as well. Kodol cures Indigestion, Dyspepsia, Sour Stomach, Heartburn, Palpitation of the Heart and Constipation. You will like it.

**Digests What You Eat**

Rests the stomach, rebuilds the tissues and gives firm flesh.

Dollar bottle holds 2½ times as much as the trial, or 50 cent size. | Prepared at the Laboratory of E. C. DeWitt & Co., Chicago, U.S.A.

**More Labor Trouble.**

A serious riot was narrowly averted last night between union and nonunion teamsters in Chicago. Nearly a hundred nonunion teamsters, who have taken the place of the strikers, have been living in the vicinity of union headquarters. I ast night when the union men were leaving Bricklayer's Hall they encountered some nonunion drivers. A general fight was soon in progress. Clubs and bricks were being used indiscriminately and several shots were fired, but the police who had been summoned when the trouble commenced, arrived in time to prevent bloodshed. It was necessary to make several arrests, however, before the opposing factions could be separated. Later in the day another disturbance was furnished by the delegates to a meeting of the Chicago Federation of Labor. Dissatisfaction over the manner in which the election of officers of the federation was being carried on brought about the trouble. During the disturbance revolvers were drawn and the ballot boxes were destroyed. Michael Donnelly, president of Amalgamated Burchers' Union, was severely beaten by the rioters and was taken unconcious from the hall. Many other persons were cut and bruised, but Donnelly was the only one who received serious injury. It was necessary to call the police to restore order before the voting could be resumed. The express drivers, formerly employed by the seven railway express companies, will remain on strike for the present, at least. This was decided on yesterday by the members of the express drivers' union when a referendum vote was taken on the proposition of calling off the strike. The decision to continue the struggle was carried by a majority of forty-two votes.

**Head-on Collision.**

A head-on freight wreck occurred on the Norfolk and Western at 3 o'clock yesterday morning at Midvale, a short distance north of Buena Vista. Walter Hite, fireman, and Brakeman V. L. Dene were killed outright, both being mangled and scalded to death by escaping steam. Engineer James Buck, of Harrisburg, Pa., was badly scalded and his condition is very serious. E. E. Argenbright and C. E. Kohler, of Roanoke, were slightly injured, being cut and bruised. Foreman Henry Mason, of Roanoke, was scalded and otherwise injured and there is doubt as to his recovery. The two trains met on a sharp curve. Both were "double-headers," one being a southbound extra and the other running as second No. 86. The trains were running at a rate of 20 miles an hour and neither crew saw the approaching engines until they were within 50 yards of each other. No one had time to jump. The shock was so great that a dozen cars in each train were telescoped, crushing to death the front brakeman and one fireman. Death was instantaneous, as the escaping steam from the locomotives literally roasted the victims to death. The accident was apparently due to the fact that Engineer Buck and his crew overlooked orders. The property damage was comparatively light, not a single one of the four engines leaving the track, but a dozen wrecked cars were piled up in heaps. Midvale is 64 miles north of Roanoke. The northbound freight train had orders to wait at Midvale for a southbound extra freight, but the orders, it is alleged, were disregarded by the northbound crew.

**Soldier Murdered.**

At a very early hour yesterday morning Private Patrick Cummings, of Company E, United States Engineer Corps, was murdered by Hayes Donaldson, of Baltimore, at a small landing place on Curtis Creek, in Anne Arundel county, Md., about ten miles from Baltimore. The murderer escaped, notwithstanding his having been beaten into insensibility and left on the wharf for dead by Cummings' companions. Cummings and a number of other soldiers were returning on a launch that plies on the creek from Baltimore to the rifle range at Glen Burnie, where their company is stationed. Donaldson, who was one of several civilian passengers, is said to have created a disturbance by criticising the army, and when he reached the wharf of the farm where he is employed, told the engineer of the launch to wait. Procuring a double-barreled shotgun, he returned, jumped into the launch, and fired both barrels, apparently at random. Cummings was the only one hit, and his companions did not know that he was killed until after they had thrown Donaldson to the wharf, beaten him into unconsciousness, and returned to the launch. His senses having returned, Donaldson fled, and has not yet been captured. Cummings was a native of New Jersey.

of Ague and Malaria, can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to Quinine, having none of this drug's bad after-effects. E. S. Munday, of Henrietta, Tex., writes, "My brother was very low with malarial fever and jaundice, till he took Electric Bitters, which saved his life. At E. S. Leadbeater & Sons drug store; price 50c. guaranteed.

**Joins the Church of Rome.**

Mrs. Launt Thompson, sister of Henry Codman Potter, Episcopal Bishop of New York, widow of the celebrated and erratic sculptor, was received into the Roman Catholic Church a few days ago at Florence, Italy. That the talented and brilliant daughter of Alonzo Potter, Bishop of Pennsylvania, and the niece of Horatio Potter, Bishop of New York, had been converted to Roman Catholicism was not known even to her most intimate friends in Florence, where she has long resided with her daughter Florence. She made solemn adjuration of Protestantism in the ancient Church of San Piero Gattolino, and this was followed by her confession and confirmation. The Archbishop of Florence graced the ceremonies with his presence; they were conducted by Rev. Giovacchino Bonardi, rector of the church, one of the oldest in Florence, which Dante mentions in his "Divine Comedy." Mrs. Thompson is now a member of the parish of San Piero Gattolino, and she has given a handsome sum of money to the rector to be distributed to the poor of the parish.

**One Dollar Saved Represents Ten Dollars Earned.**

The average man does not save to exceed ten per cent. of his earnings. He must spend nine dollars in living expenses for every dollar saved. This being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by Gibson & Timberman and W. F. Creighton & Co.

The pills that act as a tonic, and not as a drastic purge, are DeWitt's Little Early Risers. They cure Headache, Constipation, Billousness, etc. Early Risers are small, easy to take and easy to act—a safe pill. Mack Hamilton, hotel clerk at Valley, N. D., says: "Two bottles of these Famous Little Pills cured me of chronic constipation." Good for either children or adults. Sold by W. F. Creighton, 401 King street, and corner of Queen and Patrick streets.

Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

YARMOUTH BLOATERS, CODFISH and SCOTCH HERRING for sale by J. C. MILBURN.

Alexandria Gazette
SIC SEMPER TYRANNIS
VIRGINIA ADVERTISER

MONDAY EVENING, JULY 17, 1905.

A SCANDALOUS state of affairs in the statistical bureau of the Department of Agriculture not touched upon yet in the official reports regarding the sale of crop figures and the discussed prosecution of Holmes has been disclosed by the investigation, and is certain to cause a complete reorganization of the bureau. Chief Statistician Hyde is to be removed, it is said, not because it has been shown that he was connected in any way with the sale of statistics, but because his management has be so loose and has displayed such incompetency that his retention in office, it is declared, would defeat the very purposes the investigation is expected to accomplish. The scandal in this case is caused by a woman. It is asserted by other employes of the bureau that the woman in question is in virtual control of this branch of the government's work. Her position is that of stenographer or typewriter, but her authority, it is charged, extends over the chiefs of the bureau and their subordinates. This is the woman, too, who is suspected of having becoming mysteriously wealthy from sources which are merely guessed at. She has traveled in Europe, it is said, and throughout the United States, wears a great deal of jewelry, and draws a salary of not more than $60 per month. It is related that upon one occasion having had a slight dispute with one of the heads of the statistical bureau, she threw a glass of jelly at him. Another time she threw several biscuits at her superior officers, much to the astonishment of other employes of the department. For none of these outbursts of anger was she even reprimanded, it being generally understood among the clerks that she was to have her own way. This would indicate that the Department of Agriculture is under petticoat rule.

A CLERGYMAN in Washington yesterday regaled his congregation with an optomistic sermon, in which he endeavored to make it plain to his hearers that the world is becoming better. The facts are decidedly against the convictions of the preacher, judging from a glance at present conditions in the most civilized countries of the world. There has been a marked falling off in church attendance during recent years and a corresponding decline in interest in spiritual matters. Beside these the number of murders and scandals in high places—government departments and private corporations—are ever on the increase. Wife murders are becoming common, while modern Bluebeards are decidedly in evidence. The observance of Sunday is no longer looked upon by a large percentage of people as a moral or legal requirement and Sunday excursions and jaunting trips are on the increase, with the usual accompaniments of such pastimes. From an international point of view there is virtually nothing to show that the world is advancing toward the ideal of some well-meaning ministers. Many would rejoice to see a different order of thing, and the dreams of the clergyman referred to above crystalize into facts; but it is useless to close our eyes to what we see and hear and fill ourselves with a self-evident hallucination.

SEVERAL YEARS ago a number of workmen in New York gave a dinner to which they invited Senator Chauncey M. Depew. He accepted the invitation, appeared in his dress suit and made one of his characteristic speeches. He was idolized by all present and tremendous applause followed every attempt on the part of the honored guest to be facetious. But times change and men change with them. Just as the delegates of the Central Federated Union in New York were becoming drowsy at the meeting yesterday a series of resolutions were adopted condemnatory of the Senator, one of which was as follows:

"That we express our severest condemnation of the conditions prevaling in the office of the State superintendent of insurance at Albany, who withheld from the public the truthful state of affairs in the gigantic steal, and that we call upon the 'joker,' Chauncey M. Depew, as the representative of the Empire State in the national executive hall, to resign his office because of the criminal part he played in connection with the case. Organized labor regards 'the peach' as belonging to a rotten political species which has been trampling the rights of the people, while he himself is seated safely on the infamous elephant."

SENATOR MITCHELL, of Oregon, who was recently convicted of using his office as United States Senator in the furtherance of the legal practice of the law firm of Mitchell & Tanner, of Portland, has been denied a new trial by Judge DeHaven, of the U. S. Court, motions for such being overruled on every point. Senator Mitchell's offense is rank indeed. It smells to Heaven.

Robert W. Criswell, editor of the New Yorker, who was arrested a few days ago, charged with criminal libel, was arraigned before Magistrate McAvoy in New York today. He was held in $1,000 bail for trial. Bail was furnished by Mrs. Marie Lange.

## From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., July 17.

U. S. District Attorney Morgan Beach, selected by Attorney General Moody to investigate the leak scandal in the Agriculture Department, has gone to New York to interview Van Ryper, Price and other brokers mentioned in the recent report of the secret service on which Associate Statistician Holmes was discharged. Before leaving Washington, Mr. Beach secured considerable additional information from Richard Cheatham, Secretary of the Southern Cotton Growers' Association, who has been making an independent investigation on behalf of the cotton producers of the country.

President Shontz, Chief Engineer Stevens and General O. H. Ernst, of the Panama Canal Commission, will sail from New York on Thursday next on the steamer Mexico for Panama. Mr. Stevens will arrive in this city tomorrow and will remain here only long enough to close up his office here. During the absence of President Roosevelt and his family for the summer, the White House is undergoing an extensive house cleaning and course of repairs. Although but three years have elapsed since the interior of the presidential mansion was remodeled at great expense, several defects have appeared and it has been found that some of the material and workmanship were not of the best grade. The big pillars, erected in the large entrance on the main floor, have crumbled in the past year. They are built of brick and plaster about steel girders. At the time they were put in the architects were criticised for not using marble. The outside material has been replaced during the past few weeks. The exterior of the White House is being given a scrub down with soap and water. Owing to the fine quality of white paint used every other year in renewing the immaculate appearence of the building, the coating will stand a washing on the off years without appearing streaked.

The Postoffice Department has given the postmaster of Chicago an allowance of $10,000 for emergency clerk hire.

Secretary of Agriculture Wilson has not decided to recall the June report on cotton acreage, said to have been tampered with. Many believe a new report will never be ordered, as such action might reflect on Chief Statistician John Hyde.

W. D. Mabry, formerly a clerk in the office of the Auditor of the War Department and now in the employ of the canal commission on the isthmus, writes a friend in this city painting a more optimistic picture of life on the isthmus than is gained from the daily fever report issued by the bureau of insular affairs Mabry writes that he and his wife are stopping at a brand new government hotel at Corozal, three miles from Panama, where the board is excellent and the big building is very comfortable. The temperature, he says, is more comfortable than in Washington at this season of the year, and people go about their business with no more thought of yellow fever than of pneumonia or typhoid fever in Washington. Other letters from Panama, however, state that the conditions there are worse than the newspapers report them to be.

### Disorder in Porto Rico.

New York, July 17.—Advices received from Porto Rico today stated that the strike situation in San Juan is growing steadily worse. The strike, which began with the dock laborers and teamsters, has spread to the bakers and butchers, and the end is not yes. The price of beef has gone up from 20 to 38 cents a pound, of which it is said two cents a pound is contributed to the strikers A bread famine is feared because of the strike of the bakers. Insular police are active watching the strikers. Minor disorders are common. Every policeman who can be spared in the country has been brought into the town. Non-union carts are each accompanied by two armed policemen. A strike of the cigarmakers is being averted by orders of the union that the cigar men must keep at work to help support the striking longshore men and teamsters. Rumors are current that the motormen on the trolley lines will strike. The midsummer air in Porto Rico seems just now to be surchaged with a restless spirit of uneasiness, doubt and impending trouble. The native press teems wiht indecent attacks upon American officials and the Spanish editors continue to delight in throwing insults day after day at Americans. This, of course, only arouses ugly sentiment, the more so as the Americans never reply. Recently one paper openly advocated the murder of the "obnoxious" Americans as the only means of getting rid of them.

The dock laborers are striking for an increase of wages of from 15 to 25 cents an hour for day work and forty cents an hour for night work. The strikers number about 3,000.

### An Eyesore.

For a good many years an old wreck has been lying in a dock about midway between Prince and Duke streets on the north side of the Old Dominion Boat House which not only detracts from the appearance of the boat house from the street and river but is the source of great annoyance to members when they take ladies rowing, for is not an unusual sight to see two or three drunken men lying about the deck of the rotten hulk, and very often men can be seen playing cards or employing their time in some other method of gambling. Then, too, this old wreck extends out in the river within a few feet of the boat house float and boats in approaching the boat house are very often in danger of colliding with it; this is especially true on dark nights. The removal of this wreck would cost but little and would not only benefit the Old Dominion Boat Club but all who are interested in the inprovement of the river front.

### Charge Against Capt. Randall.

The statements concerning the death of William Crowley, the young colored man who jumped or fell overboard from the Estelle Randall at the foot of Eighth street, Washington, and was drowned late last Friday night, vary materially. Harry Randall, the captain of the Wakefield, who was arrested at the Prince street dock here Saturday morning, was taken to Washington and locked up in the Fourth precinct station house, charged with the murder of Crowley. Randall maintains that he knows nothing about how Crowley came to his death, and did not know that he had been drowned until he (Randall) was arrested in Alexandria and informed of it by the police. Randall said yesterday that he employed Crowley as a waiter on the Wakefield about three weeks ago; that he worked about a week, when he discharged him for being impudent. Crowley then got a job as fireman on the Estelle Randall. According to Randall's statement yesterday he was going on the upper deck of the Wakefield last Friday night to get a pitcher to put ice water in when he heard Crowley apply an ugly epithet to him. Crowley did not, apparently, know that Randall was anywhere near, but when he saw Randall he started to run, with Randall after him. Crowley, according to Randall, ran aboard the Estelle Randall, and disappeared in the firemen's room. When Randall reached the entrance to the firemen's room Crowley came out and struck Randall a staggering blow in the face. Randall hit back, striking Caowley on the shoulder. Crowley then ran aft, and, "I suppose," added Randall, "that he jumped aboard the Harry Randall. I did not follow him, but returned to the Wakefield and retired for the night. I knew nothing about the man's death until the policemen told me in Alexandria."

Thomas Dorsey and William Jefferson, colored deck hands employed on the Estelle Randall, who are locked up as witnesses, tell a different story. They say Crowley was asleep in the firemen's room when Randall came aboard, accompanied by two young men, and that he came in search of Crowley. Crowley was awakened and came out on deck, and when he saw Randall was after him he ran and jumped overboard.

It is probable that the government will have additional witnesses at the inquest, which will be held today.

### New Schedule.

The new schedule of the Washington, Alexandria and Mount Vernon Railway between this city and Washington, went into effect yesterday morning. The schedule gives thirty-eight trains each way on Sundays running about twenty minutes apart, from 7 a. m. until midnight, and on week days the number of trains are increased to fifty each way, with three extra trains to accommodate the extra heavy travel of Saturday nights. During the rush hours of the morning, when Alexandria people are anxious to get to Washington to work, the trains are run about fifteen minutes apart, and from 4o'clock in the afternooon until 7 o'clock the trains are run close together in order to get the commuters home. In the middle of the day the longest time between trains is thirty minutes. A special feature of the new schedule is that during the rush hours of the morning and evening every other train is an express, making no stops between the two cities, and making the run in about twenty-five minutes. This arrangement will prove a great convenience, and it will give the people residing between the two cities about the same service they had under the old schedule. During the past week the double tracking of the road was completed up to the trestle across Four Mile run, and within the next week the trestle will be completed and the tracks extended across it. This will give the road a double track from Alexandria to Arlington Junction, a distance of about five miles.

### Another Hot Sunday.

Observations made by the Weather Bureau Saturday night caused the forecaster to announce that a "moderate temperature" would prevail yesterday. Many read the prognostication in the morning with satisfaction and with the hope that more pleasant conditions would be in evidence than those which have held sway during the past two weeks. Old Sol, however, was determined to cause a total failure of the prophecy, and as the day god peered over the Maryland hills and rose higher and higher there was every indication that no material fall in the temperature was probable. The breezes which were occasionally felt were but gentle zephyrs and came only at intervals. By the time the church bells were heard it seemed as hot as ever. The congregations were consequently sparse. In the afternoon comparatively few people were on the streets. As the shadows lengthened, however, the streets became thronged with persons, while the piers were sought by many. The breeze from the Potomac was by no means fresh, although the river front was the coolest place that could be found. The attendance at the various places of worship showed a considerable falling off at night. The weather today was about the same as that of yesterday.

### Selling Liquor Without Licenses

Officers Smith, Nicholson and Bettis yesterday arrested Lillie North, Rose Roberts, Eva Baker, Fannie Kimball, Annie Fisher, Pauline Miller and May Belmont, residents of north Lee street, charged with selling liquor on Sunday without a license. This morning in the Police Court the first-named was $50, the Roberts woman had her case continued, and the others forfeited $50 each by failing to appear. The police are endeavoring to put a stop to Sunday liquor-selling, as well as the operation of speak-easies.

The new pier building in King George county, near where old Stiff's wharf formerly stood, is now nearly completed and will be ready for service in a few days. It is understood it will be used as a steamboat landing by the river steamers and will take the place of Stiff's.

### Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Peter Kitts, colored, arrested by Officer Smith, charged with vagrancy, was fined $5.

Catherine Ford, colored, arrested by acting Lieutenant Roberts charged with disorderly conduct, was dismissed.

Bertie Washington, colored, arrested by Officers Bettis and Nicholson charged with robbing Wm. Young of $7, was fined $10.

James Price, colored, arrested by the same officers charged with being a party to the above, was dismissed.

Lillie North, arrested by Officers Nicholson, Smith and Bettis charged with selling liquor on Sunday and without a license, was fined $50. Eva Baker, Fannie Kimball, Annie Fisher, Pauline Miller and Mary Belmont, arrested by the same officers charged with similar offenses, each forfeited $50 by failing to appear.

Rose Roberts, arrested by Officers Smith and Bettis charged with selling liquor on Sunday and without a license, had her case continued.

Jared Dorsey, arrested by Officers Allen and Beach charged with disorderly conduct, was dismissed.

Ollie Sykes, arrested by Officers Smith, Bettis and Nicholson charged with harboring minors, had her case continued.

A woman, arrested by Officer Knight charged with assaulting a neighbor, was fined $5.

### Action of the Machinists

Columbia Lodge, No. 174, of the International Association of Machinists, held a special meeting at Naval Lodge in Washington yesterday morning to consider the much-discussed half-holiday question affecting the employees of the Washington navy yard, and as a result a committee of two was appointed to call on the President at Oyster Bay to present the matter to him, and, if possible, get him to give the employees the same privilege as they were given last year. The meeting was a thoroughly representative one, and was attended by over 400 machinists. Though there was much enthusiasm at the meeting, and the views of the men were freely expressed, there was not a hostile word said against any member of the Navy Department, nor against a member of the supervising force of the yard. The substance of the expressions of all who spoke was simply that, as all the employees of the other departments in Washington were given the half holiday on Saturday, the men failed to see why they were discriminated against. At the meeting yesterday morning it was also decided to invite Samuel Gompers, president of the American Federation of Labor, and James O'Connell, president of the International Association of Machinists, to accompany the committee to Oyster Bay, and take part in the conference, if such will be agreeable to the President.

### Funerals.

The funeral of the late James Owen Kerby, whose death occurred Friday night at his home, "Mount Pleasant," Fairfax county took place yesterday afternoon and was attended by many friends and acquaintances of the deceased, including a number from this city. The interment was in the old Woodlawn Cemetery. The services were held in Groveton Chapel and were conducted by Rev. P. P. Phillips, of St. Paul's Church in this city. The pallbearers were his six sons-in-law, Messrs. S. W. Greenfield, John C. Winterwerpt, M. J. Griffin, James and Thomas McKeown and John S. West.

The funeral of the late James E. Barron took place yesterday evening from the residence in Fairfax county, near this city. The services were conducted by Rev. Mr. Carpenter, of Grace Church, in this city.

The remains of Roscoe E. Underwood, who was killed by a train in Washington on Saturday last, were brought here today and interred.

### Corporation Court.

[Judge L. C. Barley presiding.]

G. A. Armes vs. Kretol Chemical Co; final decree.

### Case to be Examined.

It is said by people in Fairfax county that the recent killing of Wilmer Beavers by William Simpson is to be examined by the grand jury, it being alleged that facts which were not brought before the coroner's jury have since been ascertained. Beavers, it will be remembered, attacked Simpson and shot at him, when Simpson disarmed Beavers and dealt him a blow which resulted in his death.

### Baseball.

A large crowd is expected to witness the game of baseball this afternoon between the Del Rays and the Old Dominions. The battery of the former nine will be Thompson and Glasgow and for the latter Ennis and Lucas. Thompson, one of the crack pitchers in the local league, is always a feature of the games in which he participates

### Frogs in a Mail Box.

Mr. M. F. Dwyer, mail carrier, unlocked the mail box at the corner of Queen and Columbus streets at an early hour this morning when a frog leaped out. Mr. Dwyer proceeded to make an investigation and found several other specimens of the bachtrian creation in the box, but no mail matter.

**Blacksnake and Copperhead Fight.**

Jacob Dellinger, of Half Way, Washington county, Md, recently witnessed a fight to the death between a six-foot blacksnake and a large copperhead. While driving along the road, near the schoolhouse, on the Falling Waters road, Mr. Dellinger's attention was attracted by an unusual noise on the edge of the wood behind a bush pile. He stopped to investigate, and as he drew closer to the noise he was fascinated with what he saw.

A blacksnake of unusual length and a copperhead were in mortal combat and the quick movement of the reptiles swept the grass and leaves like the fury of a storm. The blacksnake was the aggressor and pushing the fight hard. The copperhead had all it could do to defend itself from the rushes of its antagonist, and rearing like a mad bull the copperhead made repeated thrusts at the blacksnake to fasten its poisonous fangs in the black sinuous body, failing in each attempt.

How long the snakes had been fighting before Mr. Dellinger arrived upon the scene he does not know, but he stood and watched them for 20 minutes racing back and forth in the death struggle. The blacksnake's tactics were to rush around the copperhead, which was kept going around in a small circle, and occasionally the blacksnake would grab at its antagonist and miss a hold until finally the blacksnake succeeded and like a flash wrapped the copperhead like a spring closing and crushed the copperhead to death. When the last quiver in the body of the copperhead had ceased the blacksnake slowly uncoiled itself and started to leave the scene of battle, but Mr. Dellinger slew it there beside the vanquished reptile.

**Another Coal Strike.**

"It would not surprise me if next year would see the biggest strike in the history of the anthracite coal fields. The situation was never so uncertain," said George Hartlein, secretary of the Ninth district branch of the United Mine Workers of America, at Shamokin, Pa., yesterday. Mr. Hartlein bases the uncertainty of the situation on the large number of mine-workers who are not members of the union because of their arrearage in dues. Less than one-third of the men in the district are said to be in good standing. Other districts are quite as bad. The secretary said there was no use in denying that the organization in the anthracite region had neither money nor members, and the operators might take advantage of this and try to force a reduction.

**Buy It Now.**

Now is the time to buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is certain to be needed sooner or later and when that time comes you will need it badly—you will need it quickly. Buy it now. It may save life. For sale by Gibson & Timberman and W. F. Creighton & Co.

**A Grim Tragedy**

is daily enacted, in thousands of homes, as Death claims, in each one, another victim of Consumption or Pneumonia. But when Coughs and Colds are properly treated, the tragedy is averted. F. G. Huntley, of Oaklandon, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption. Coughs and Cold which cured her, and to-day she is well and strong.," It kills the germs of all diseases. One dose relieves. Guranteed at 50c and $1.00 by E. S. Leadbeater & Sons, druggist. Try them today.

**Indigestion Cured.**

There is no case of indigestion, Dyspepsia or Stomach Trouble that will not yield to the digestive and strengthening influence of Kodol Dyspepsia Cure. This remedy takes the strain off the stomach by digesting what you eat and allowing it to rest until it grows strong again. Kodol Dyspepsia Cure affords quick and permanent relief from Indigestion and all stomach troubles, builds up the system and so purifies that disease can not attack and gain a foothold as when in a weakened condition. Sold by W. F. Creighton, 401 King street, and corner Queen and Patrick streets.

**The Only Way to Cure.**

It contains no opiates and is best for coughs, colds, croup, whooping cough, etc. Pleasant to the taste and equally good for child or adult.
